

Our accuracy is a perfected art

We are what we repeatedly do: strategic intelligence and commercial operations benchmarking. Our firm provides the missing piece in developing the most effective strategies critical to the viability and competitive growth of a pharmaceutical or biotech company

Our team of highly skilled professionals are proud to be the industry's **leading** provider of **primary** Commercial Operations Benchmarking data.

Over 60 employees worldwide

Over 300 years of pharmaceutical and health care experience

74 years of direct experience in the pharmaceutical industry

Fluent in over 15 languages from our headquarters alone

Founded in 1995, Pharmaforce International headquarters is based in Reading, Pennsylvania. All our directors and project managers are headquarter-based, which allows for close collaboration among units. Additionally, our directors and project managers are responsible for all triangulation of data. Their professional backgrounds and experience include field sales, field management, field medical, medical devices, account management, contract pricing, KOL management, product launches, product literature development, and the hosting of conferences and trade shows

Our teams' uniquely diverse workforce brings cultural sensitivity to our findings and enriches our perspective and understanding of the industry. Our on-the-ground contacts and analysts located in major markets add to our ability to provide quality data globally.

Our decades of experience in perfecting our research methodology has built trusted relationships with our contacts; and, therefore, the quality of our data exceeds our clients' expectations.
